

MEN'S CHRISTIAN GOLF LEAGUE 2017

Now to explain the 'A' Flights schedule. With (12) teams we have elected to play the following formats: We have (11) weeks of match play. We are going to play (3) position rounds. One in week 6, one in week 12 and the final one in week 18. So no team plays each other more than once in regular match play, we have added two best ball scrambles and two Stableford scrambles . Both of these will be played for points. You may play a team twice, but in a different format as listed below. You will not play them three times as we will pull the team you played in the first format out of the hat on the next draw.

In the **Best Ball Scramble** , we will draw two teams that will play against each other. We will take the lowest handicaps from each pair and determine the amount of strokes that will be given. Example: Brian DeRita (4) and Brent Cymbalski (4) versus Nate Hood (7) and Trevor Vallus (8). The difference between the two lowest handicaps is (3) strokes, on the hardest handicap holes to the easiest. You will earn 2 points for each hole won, and 1 point on tied holes. Each player will play the hole individually, but will record the best score made. Example: Stan has a 3 on a par 4 and Ray has a par on the hole. You will record the birdie. We will not use these rounds as part of your handicap.

In the **Stableford Scramble** , we will again draw for foursomes that will not be playing against each other, but rather against the course. It will be each team trying to score points by making Hole in Ones, Double Eagles, Eagles, Birdies, Pars and Bogeys. This will be a scramble using the teams best shot on each turn.

HOLE IN ONES: Will earn 6 points

DOUBLE EAGLES: Will earn 5 points

EAGLES: Will earn 4 points

BIRDIES: Will earn 3 Points

PARS: Will earn 2 points

BOGEYS: Will earn 1 point

The points won will be added to the teams point totals. This round will not be used in calculation of your handicap.
